

# ZIPWAKE

CHOOSE COMFORT. ENJOY PERFORMANCE.

Zipwake, the world's first inexpensive Dynamic Trim Control System, incorporates a state of the art series of durable, fast-acting interceptors, eliminating the well-known trim problems of planing and semi-planing boats between 20-50 feet. The system is fully automatic and significantly enhances performance, fuel economy, comfort and safety when accelerating, turning or running in a seaway.

## FEATURES:

- Fully Automatic and active trim control system
- Dynamically eliminates uncomfortable pitch and roll, and automatically minimises wave resistance
- High quality manufacture, made in Sweden
- 5-10 x Faster than traditional trim tabs
- Built in GPS, 3D Gyro and 3D Accelerometer

# Zipwake Series S Complete Kit Boxes

**ZIPWAKE**

The Dynamic Trim-Control System that's set to revolutionise the boat world. Featuring an advanced, intuitive control system and a stunning new innovative design, Zipwake delivers a more comfortable ride, better performance and improved fuel consumption – whatever the conditions.

A Kit Box includes all parts needed to install a Dynamic Trim Control System with one pair of fast-acting interceptors. There are four different Kit Boxes, one for each interceptor model.

Standard boxed kit includes these components:

2 x Interceptors  
+ Operators manual, installation guide,  
drill template and screws

1 x Control Panel

1 x Distribution Unit

1 x standard cable 7m  
1 x Extension cable 1.5m/3m

AMI Code	Supplier Code	Description
0580100	2011145	KB300-S Kit Box 300 S
0580105	2011146	KB450-S Kit Box 450 S
0580110	2011147	KB600-S Kit Box 600 S
0580115	2011148	KB750-S Kit Box 750 S

Any base installation can be expanded with up to two extra pairs of Series S interceptors, allowing a total of six interceptors without any need for additional connectors or power supply.

## Zipwake Adaptor Plate Kits

New Adaptor Plates from Zipwake allow boaters to easily upgrade to Zipwake from another similarly sized interceptor system.

The plates streamline hull preparations to upgrade to Zipwake Series S, fitting perfectly to the existing transom screw hole pattern and sealing previous holes for thru hull fittings

An Adaptor kit includes two adaptor plates, 2 O-rings, screws and an installation guide.

The kits are available in two models, 300mm and 450mm.

Interceptors provide less resistance compared with trim tabs.

Hull resistance

Concealed or above waterline cable mount

Gimbal Bracket

All in a box

## SMART RIDE CONTROLLER

Model	CP-S
Weight	0.22 kg
Mounting	Flush or surface
Supply Voltage	12-32 V DC
Power Consumption	10 W max
Waterproof Rating	IP67/IP64 (front/back)
Operating Temperature	-20° to +85°C (-4° to +185°F)

## NOW EVEN MORE DYNAMIC

Chine interceptors provide a unique means of maximizing pitch and roll motion control by utilizing the furthest outboard surfaces of the hull bottom for lift generation.

When space between multiple outboards or sterndrives is tight, an intermediate interceptor offers a viable alternative for additional pitch and roll motion control not possible with a straight interceptor without degrading propeller performance.
